1. The drawings filed on 9/19/06 are accepted.
2. The following is an examiner's statement of reasons for allowance: the examiner found no teaching in the prior art that would render obvious the claimed calibration method, device and computer program including "optimising a difference between the estimated cross-correlation and a cross-correlation model; and estimating said parameters from the optimized difference; wherein the cross-correlation model is represented by the following mathematical equation:

$$R = GBG^H + D$$

in which:

R represents a cross-correlation matrix,

G represent a gain matrix comprising gain parameters,

G^H represents an Hermitian conjugate of the gain matrix,

D represents a ((block) diagonal) noise matrix comprising noise parameters and

B represents a matrix comprising information about the signal source".

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
